A NEW LEVEL OF SUPPORT FOR YOUR RENOVATION

Since 2011, Sweeten has provided a free service matching homeowners to the best general contractors, with personal support until renovation completion.

That free service continues, but in recent years, clients have asked for more tailored and intensive involvement in their projects. To address that need, we are introducing Premium Services, a suite of fee-based options to customize the experience.

Whether you're interested in a Sweeten Renovation Planner attending regular site visits to document contractor meetings, conducting deeper research on a certain topic or organizing your project with tracking materials, your right hand in renovation is ready to assist.

Premium Services build upon the great service Sweeten already provides for free, helping you renovate fearlessly and create a space you love.
